

October 3, 2020

As of yesterday's report, Greenwood County had 0 additional confirmed cases in the county for a total of 2,198 cases confirmed since 21 March. **(Over the past week, DHEC has several test results reported to them late. Some results are as far back as March. These numbers have been added to the county's overall total, but have not impacted the daily reported numbers.)** Remember this is only those which have been confirmed and is for those who were tested a minimum of two days ago. This means there are others who have been tested and are in quarantine awaiting results. Additionally, an individual can be asymptomatic, (contagious but shows no symptoms), and may choose not to be tested.

The first 2,082 cases in Greenwood County were reported over 15 days ago, so there are 2,082 individuals who should have recovered from the virus. Additionally, Greenwood County has had 65 confirmed deaths due to the virus. This brings Greenwood County's remaining estimated total of active confirmed cases to 51. DHEC does not track recovered individuals by county, so this number is an estimate based on the following: Most individuals recover from the virus within this time frame.

From 18 September until 2 October (2 weeks), Greenwood has had 81 confirmed cases out of a population of 70,811. This equates to an incident rate of 114.4 per 100,000 individuals which is rated as **medium** by SCDHEC. (Low = 50 or less; Medium = 51 - 200; High = 201 or more)

SCDHEC reported an additional 256 new confirmed cases in the state for a total of 144,356. Also, they reported 12 new confirmed deaths in the state for a total of 3,211. Please click this [link](#) to see the deaths by county. For additional information on underlying conditions or other information in this section, please call DHEC at 1-855- 472- 3432. SCDHEC has begun providing a number of probable cases and deaths. I will only be providing the confirmed numbers. Once a probable case or death is confirmed, they will add it to their confirmed total and I will report it.

SCDHEC reported 8,202 of 10,037 inpatient beds are in use for an 81.7% usage rate statewide. Of the 8,202 beds in use, 679 are occupied by patients who either have tested positive or are under investigation for COVID-19. This is 8.3% of the beds in use.

As of 30 September, Greenwood County has 181 of 206 hospital beds in use which is 87.9% utilization rate. As of 2 October, Self Regional reported 9 COVID-19 patients with 2 in ICU. Of these, 1 patient is on ventilation.

SCDHEC has created a dashboard which tracks the COVID-19 cases in K-12 schools within SC. Please click this [link](#) to see the numbers of reported cases by school.

SCDHEC is finding an increased rate of individuals who do not have symptoms and don't know they are infectious as they have expanded testing. This increases the risk of spreading the virus. Over the past couple of weeks, Greenwood County has seen the number of cases of COVID-19 increase. In some cases, this was the result of individuals not social distancing or wearing masks. It is important we slow the spread of the virus by keeping 6 feet apart, washing our hands, avoiding large gatherings, remaining home when sick and **wearing face coverings** when in public facilities which do not allow for social distancing.
